

Art Unit: 3628

Applicant's response of 09/26/2008 is found to be non-responsive.

The status identifier of currently amended claims 6, 8, 13 and 15 indicates that the claims are ORIGINAL; the status identifier of currently amended claims 18, 85, 86, 88-91, 96, 97 and 100-102 indicates that the claim are PREVIOUSLY PRESENTED. Accordingly, the claim identifier of claims 6, 8, 13, 15, 18, 85, 86, 88-91, 96, 97 and 100-102 is incorrect.

In accordance with Revised Amendment Practice 37 CFR § 1.121 there are seven permissible status identifiers (See attached sheet):

1. (Original)
2. (Currently amended)
3. (Canceled)
4. (Withdrawn)
5. (Previously presented)
6. (Not entered)

Furthermore, 37 CFR § 1.121(c) states:

Art Unit: 3628

- (2) *When claim text with markings is required.* All claims being currently amended in an amendment paper shall be presented in the claim listing, indicate a status of “currently amended,” and be submitted with markings to indicate the changes that have been made relative to the immediate prior version of the claims. The text of any added subject matter must be shown by underlining the added text. The text of any deleted matter must be shown by strike-through except that double brackets placed before and after the deleted characters may be used to show deletion of five or fewer consecutive characters. The text of any deleted subject matter must be shown by being placed within double brackets if strike-through cannot be easily perceived. Only claims having the status of “currently amended,” or “withdrawn” if also being amended, shall include markings. If a withdrawn claim is currently amended, its status in the claim listing may be identified as “withdrawn—currently amended.”
- (3) *When claim text in clean version is required.* The text of all pending claims not being currently amended shall be presented in the claim listing in clean version, *i.e.*, without any markings in the presentation of text. The presentation of a clean version of any claim having the status of “original,” “withdrawn” or “previously presented” will constitute an assertion that it has not been changed relative to the immediate prior version, except to omit markings that may have been present in the immediate prior version of the claims of the status of “withdrawn” or “previously presented.” Any claim added by amendment must be indicated with the status of “new” and presented in clean version, *i.e.*, without any underlining.

Applicant needs to provide a proper claim identifier. Failure to remedy the above deficiencies will result in abandonment of the application. Two notices of non-responsive will not be sent.

Since the above mentioned response appears to be a bona fide attempt to reply, applicant is given a time period of ONE MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF TIME ARE AVAILABLE

Art Unit: 3628

UNDER 37 CFR 1.136(a). Failure to correct the above noted deficiencies in the next response will result in the abandonment of the application.
